Constructing Excellence Midlands is driving the change agenda by improving industry performance to ultimately produce a better built environment across the East and West Midlands.

Part of the Constructing Excellence Regional Partnership - Constructing Excellence Midlands is a cross sector and cross supply chain member led organisation, operating for the benefit of industry and its stakeholders.
CE Midlands is a progressive membership organisation committed to improving business performance by driving innovation and best practice in the construction industry.

Why get involved?

CE Midlands is a collaboration of Midlands regional businesses – a not-for-profit membership organisation owned by the members. We work to support and advance the construction sector through collaboration, knowledge sharing, networking and by engaging with government and major public sector bodies to influence policy and industry initiatives, to ultimately safeguard the interests of our members and help build their businesses.

CE Midlands encourage networking and knowledge exchange by providing learning platforms to strengthen improvement throughout the industry - such as the local Best Practice Clubs, Thought Leadership, Forum activity and Demonstration Programmes.

Our website is at the core of everything we do and provides a platform for members to engage in debate, showcase best practice and is an essential resource information centre. This online tool means that we can remain lean and efficient.

By getting involved, members have access to training, technical support and opportunities to promote projects where business objectives have demonstrably benefitted from the application of best practice methods and innovative construction technology.

In an increasingly difficult market, by joining a positive force for change, members can influence the agenda, gain industry intelligence into trends and innovations which will help shape business planning and potentially assist entering new markets.
Membership benefits

The primary objective of **CE Midlands** is to deliver tangible benefits to our members, to support business objectives and improve the performance of the construction industry.

**CE Midlands** bring practical support by providing members with:

- Networking
- Learn and share best practice principles
- Knowledge transfer
- Enhance profitability/productivity
- Improve understanding
- Access to tools and techniques
- Peer intelligence
- Increase business opportunities
- Discounted access to conferences, seminars and workshops
- Raise profile in the region
- Influence the change agenda/industry/Government

How to get involved?

Prospective members of **CE Midlands** must submit an Application Form. This Form can be completed online via the website or can be requested by emailing. Applications will be reviewed and require approval by the CE Board. Applicants are invited to nominate their chosen base club and participate in one or more Thought Leadership Forums.
