

**Self-responsible travel certificate within the framework of the state of alarm declared for the health crisis of COVID-19**

Following the state of alarm declaration, as you know, the free flow of people and the reasons for which they may circulate on public roads has been restricted.

The Generalitat of Catalonia has published the certificate of travel that you will find attached, to accredit the cause of travel in case the police forces require it. You can access the [form](#) in its [pdf](#), [word](#), as well as [online](#) formats.

Although it is not compulsory, it is advisable to carry it both when travelling by vehicle and on foot (especially if you are traveling far from home).

It can be carried in both printed and digital format on your mobile phone or other devices (such as tablets).

It is necessary to carry a certificate for each trip and, if several activities are to be carried out in the same trip, all of them must be indicated, specifying the furthest destination.

This certificate does not replace the company's work certificate as it is complementary. We attach a [model certificate](#) that the company must provide to its workers who have to travel to their workplace.
